We offer several products to supplement your education about the stock market and the indicators we use to track the markets. These include 2 instructional DVDs, the original *Patterns For Profit* booklet written by Sherman and Marian McClellan, and a CD-ROM disk with all *McClellan Market Report* issues from December 1997 to present.

Our **newest product** is a DVD seminar video about the subject of **Liquidity Waves**, and how understanding them can help investors see what is coming ahead of time. Taped in Dallas, TX in March 2007, this new DVD builds on the topics presented in our Advanced Topics DVD, and will help build your understanding about the interrelationship of different financial markets.

All prices include shipping charges.
